

## **About the changes in the BIST-KYD Indices Methodology**

In order to comply with the BIST Directive on Financial Benchmarks Compliant with IOSCO Principles and related Procedures;

- “BIST-KYD Indices Ground Rules” is renamed as “BIST-KYD Indices Methodology”,
- A statement is added to the "Purpose" section of the Methodology that Borsa İstanbul has full control and responsibility over the indices it calculates,
- The title of “Prices Used in Index Calculations” in the Methodology is changed to “Prices Used in Index Calculations and Data Hierarchy” and in this section some explanations, regarding the prices to be used in the indices in cases where transactions are not occurred or the prices of the securities included in the indices cannot be reached due to the existence of unusual market conditions, are added,
- Immaterial changes seen as necessary in practical purposes are made to the Methodology,
