Subject : Announcement on the changes made in BIST
Market Cap Weighted Stock Indices Methodology

Dear General Manager
Dear Member

BIST Market Cap Weighted Stock Indices Methodology (Methodology) is periodically reviewed, reflecting the developments in the markets and changes arising from local and international legislation, meeting the requests of market participants and making the necessary updates.

In this context, Borsa İstanbul Management decided to;

- To change the statement in the Methodology under the heading “6.17. BIST Buyback Index” article (b) from “*Repurchased a number of shares representing at least 0.1% of its capital within the scope of the program*” to “*Repurchased a number of shares, over the last three years, representing at least 0.1% of its capital within the scope of the share repurchase programs*” taking into account the needs encountered in practice and in order to ensure that the index continues to be calculated in line with its core objective,
- To implement the changes as of May 06, 2025,
- To classify the changes made in the Methodology as Urgent Material Changes based on Article 7.7 titled “Urgent Material Changes” of the Financial Benchmarks Management Procedure and to follow the procedures and principles specified in the said article,

Methodology is presented in Appendix 1 in a traceable format with changes, and in its final form with accepted changes in Appendix 2. The announcement and relevant appendices can be reached from the “Index Announcements” section of Borsa İstanbul corporate website (www.borsaistanbul.com/en).

Kindly submitted to your information.

Regards,

Murat BULUT
Deputy General Manager
