1. INTRODUCTION

1.1. Purpose

BIST Market Cap Weighted Stock Indices have been created to measure the price and the return performances of group of stocks traded on Borsa İstanbul.

1.2. Administration

Borsa İstanbul is the owner of the intellectual property rights of all indices calculated under this Methodology and, as the administrator with full control, is responsible for all processes related to the creation, calculation and publication of these indices and their compliance with the "Principles for Financial Benchmarks" of the International Organization of Securities Commissions (IOSCO). Information on the compliance of the Financial Benchmarks calculated by Borsa İstanbul with the principles of IOSCO can be accessed from the Borsa İstanbul corporate website, Indices - Compliance with IOSCO Principles page. Borsa İstanbul Index Directorate carries out the works and operations to ensure the continuity of BIST Market Cap Weighted Stock Indices.

Lists of constituent stocks in the indices are determined and used in the index calculations by Borsa İstanbul according to the Methodology. If the securities to be included in the indices cannot be determined due to lack of data or in case of unusual market conditions, the indices continue to be calculated with the current list.

1.3. Financial Benchmarks Committee

Financial Benchmarks Committee (Committee) formed and appointed by Borsa İstanbul for the sake of development of opinions and proposals on all and any issues that may be included in the scope of control and oversight of Financial Benchmarks, in order to perform the control and oversight functions described in Article 8 "Control Framework" and Article 9 "Internal Oversight" of Borsa İstanbul A.Ş. Directive on Financial Benchmarks Compliant with IOSCO Principles.

The Committee provides governance and internal oversight in regarding all aspects of Financial Benchmark determination activity. Duties and responsibilities of the Committee are basically comprised of determination and announcement of Financial Benchmarks, and creation of Financial Benchmarks, and determination of Methodology, and calculation of Financial Benchmarks, and publishing and dissemination of Financial Benchmarks, and conduct of related operations for reporting and submission to the Decision-making Body referred to in Article 4 of Borsa İstanbul A.Ş. Financial Benchmarks Management Procedure. The Committee gathers at least once every four months. Duties, responsibilities and the membership structure of the Committee are stated in Article 5 of Borsa İstanbul A.Ş. Financial Benchmarks Management Procedure. All practices can be accessed from the Borsa İstanbul corporate website, Indices - Compliance with IOSCO Principles page.

1.4. Changes to the Index Methodology

Borsa İstanbul has implemented a governance and oversight structure with committees and policies to review the Methodology and conduct consultations with Stakeholders as needed.

The Methodology is regularly reviewed (at least once a year) by The Committee to ensure that it continues to best reflect the change that each index aims to measure.

Needs for revision in the Methodology may arise as a result of change requests from Subscribers or Stakeholders and periodic or non-periodic reviews within the scope of the oversight of the Financial Benchmarks.

All changes that are decided to be made in the Methodology are announced to the public on Borsa İstanbul corporate website, Indices - Methodologies and Changes page, accompanied by the relevant explanations and rationale for the revision, before being implemented.

All practices to be made on matters not regulated within the scope of this Methodology is determined and announced by the Borsa İstanbul Management with Financial Benchmarks Committee's advice.

2. ABBREVIATIONS, DEFINITIONS AND GENERAL RULES

2.1. Abbreviations

Included in this Methodology;

- Borsa, Borsa İstanbul: Borsa İstanbul A.Ş.,
- Committee: Financial Benchmarks Committee,
- Methodology: BIST Market Cap Weighted Stock Indices Methodology,

expresses.

2.2. Number of Shares

It refers to the number of shares calculated in accordance with Article 5.1.1 titled "Trading Unit (Lot)" of Borsa İstanbul A.Ş. Equity Market Procedure, using the company's issued or paid-in capitals (including the temporary shares which are created in the Central Registry Agency (CRA) during capital increases under the paid-in capital system until the capital is registered and announced) reached within the scope of the announcements made by Borsa İstanbul on the Public Disclosure Platform (PDP - www.kap.org.tr) regarding corporate actions of companies.

2.3. Daily Average Traded Value

Daily Average Traded Value is calculated by dividing only the amount of secondary market transactions with the feature code "E" (trades in trade report are not taken into account) by the number of days each stock can be traded in the same period.

2.4. Market Value

Market Value is calculated by multiplying the Number of Shares by the stock price.

2.5. Free Float Ratio (FFR)

Free Float Ratio has been defined by the Capital Markets Board (CMB) as a concept showing free float rate of the stocks traded on Borsa İstanbul equity markets, and is calculated and announced by CRA.

2.6. Weighting Factor

Weighting Factor is a number greater than 0 and smaller or equal to 1 used to adjust the weight of a stock in the index. For capped indices where the weight of each stock is determined peculiarly, free float market values are taken into account only after being multiplied by this weighting factor.

2.7. Weighted FFMV

Weighted FFMV (Weighted Free Float Market Value) is calculated by multiplying the Market Value by the Free Float Ratio and the Weighting Factor.

2.8. Adjusted Prices

Adjusted Prices refer to the prices before the corporate actions multiplied by the coefficient determined by dividing the theoretical/reference price calculated in accordance with the "Procedure for Theoretical/Reference Price Calculations in Cases of Corporate Actions", by the last closing price used in the calculation. If there is no exercise of rights for shareholders due to corporate action than the coefficient is taken as "1".

2.9. Average MV

Average MV (Average Market Value) of a stock is calculated by multiplying the Number of Shares at the end of the Review Period by the arithmetic average of Adjusted Prices (closing) for the Review Period.

2.10. Average FFMV

Average FFMV (Average Free Float Market Value) is calculated via multiplying the Average MV by the FFR.

2.11. Corporate Governance Rating

Corporate Governance Rating is a measure of the accordance of a company with the corporate governance principles, determined by a rating institution authorized by CMB in the scope of the Communiqué of CMB on "Principles Governing Rating Activities in the Capital Market and Rating Institutions".

2.12. Exchange Rate

Refers to the Forex Buying Rates announced by the Central Bank of Republic of Turkey.

2.13. Versions of the Indices

BIST Stock Indices are calculated in currencies TL, US\$ and Euro, both in terms of Price and Return.

The only difference between the Price Index and Return Index is related to cash dividend payments. In cash dividend payments, the divisor of the Return Index is adjusted assuming that the dividend paid is invested in the constituents in proportion to their weights; whilst the divisor of the Price index is not adjusted assuming that the dividend paid is excluded from the portfolio.

For some indices, versions, with exactly same index constituents but with different capping parameters, are also calculated. In this case, each of the non-capped and capped versions of the index are calculated in currencies TL, US\$ and Euro, both in terms of Price and Return.

2.14. Excluded Stocks

Stocks of companies traded on Watchlist Market, Venture Capital Market, Pre-Market Trading Platform and capital market instruments traded on Structured Products and Funds Market [together with Commodity Market](#) are not included in any of indices.

Stocks of investment trusts are not included in any of indices, except BIST Investment Trusts Index.

2.15. Starting / Ending Index Calculation

In order to launch a new index, except indices with a fixed number of stocks, the number of constituents should reach to 5.

If the number of companies/stocks included in an index being calculated falls below 2, the calculation of the index is terminated permanently by the end of the last trading day of the month following the announcement. In cases other, in order to end the calculation of an index, Article 8 titled "Cessation of Financial Benchmarks" of Borsa İstanbul A.Ş. Financial Benchmarks Management Procedure is applied.

2.16. Review Period and Review Day

Review Periods and the corresponding data used in periodic reviews are shown in the table below.

Index	Data Used	Review Period / Day
BIST 30 BIST 50 BIST 100	Number of Shares, FFR	The last day of November, February, May and August
BIST 500 BIST Liquid Banks BIST Liquid 10 Ex Banks	Daily Average Traded Value, Adjusted Prices	Last 12 months as of the last day of November, February, May and August
BIST Sustainability BIST Sustainability 25	Sustainability Score	The first Monday of December, March, June and September
	Number of Shares, FFR	The last day of November, February, May and August
	Daily Average Traded Value, Adjusted Prices	Last 12 months as of the last day of November, February, May and August
BIST Dividend	Net Profit Amount of Cash Dividend Paid Amount of Rights Issue	The last day of March, June, September and December

BIST Dividend 25	Number of Shares, FFR Dividend Yield	The last day of March, June, September and December
	Daily Average Traded Value, Adjusted Prices	Last 12 months as of the last day of March, June, September and December
BIST Dividend 5 Years BIST Dividend 10 Years	Amount of Cash Dividend Paid	The last day of December
BIST Participation 30 BIST Participation 50 BIST Participation 100 BIST Participation All Shares	KAFIF Form Data	The fifth trading day before the first trading day of May and October
	Number of Shares, FFR	The last day of March and August
	Daily Average Traded Value, Adjusted Prices	Last 12 months as of the last day of March and August
BIST SME Industrial	Revenue, Total Assets	The last day of April
BIST Buyback	Buyback Data	The last day of every month

2.17. Index Period and Announcement of Periodic Changes

Index Period is the period in which the periodic changes in the scope of indices are in effect as a result of the periodic review conducted.

Periodically reviewed indices, Index Periods and Announcement Dates are shown in the table below.

Index	Index Period	Announcement Date
BIST 30 BIST 50 BIST 100 BIST 500 BIST Liquid Banks BIST Liquid 10 Ex Banks BIST Sustainability BIST Sustainability 25	January - March, April - June, July - September, October – December	At least 10 days prior to the beginning of the relevant Index Period
BIST Dividend BIST Dividend 25	February – April May – July August – October November – January	At least 10 days prior to the beginning of the relevant Index Period
BIST Dividend 5 Years BIST Dividend 10 Years	February - January	At least 10 days prior to the beginning of the relevant Index Period
BIST SME Industrial	June – May	At least 10 days prior to the beginning of the relevant Index Period
BIST Participation 30 BIST Participation 50 BIST Participation 100 BIST Participation All Shares	May - September October – April	At least 2 workdays prior to the beginning of the relevant Index Period
BIST Buyback	From the 5th trading day of each month to the 4th trading day of the next month	At least 2 workdays prior to the beginning of the relevant Index Period

2.18. Calculation and Dissemination Frequency

Indices are calculated when Borsa İstanbul Equity Market is open.

The calculation and dissemination frequency of the indices are shown in the table below.

Index	Version	Calculation and Dissemination Frequency
BIST 30	TL – Price	Once a second
BIST 100	US\$ - Price US\$ - Return Euro - Price Euro - Return	Once at the end of session
BIST 500		
BIST Liquid Banks		
BIST Liquid 10 Ex Banks		
BIST Dividend 25 Capped 10		
BIST Sustainability 25		
BIST Participation 30		
BIST Participation 50		
BIST Participation Sustainability		
BIST Participation Dividend		
BIST Industrials		
BIST Banks		
Other Indices	TL – Price	Once in 10 seconds
	US\$ - Price US\$ - Return Euro - Price Euro - Return	Once at the end of session

2.19. Data Precision

Data	Data Precision
Index Values	Rounded to 2 decimal places
Index Divisors	Rounded to 8 decimal places
Free Float Ratio (%)	If Free Float Ratio < 1% Rounded to 2 decimal places If Free Float Ratio >= 1% Rounded to integer numbers
Weighting Factor	Rounded to 12 decimal places

2.20. Dividend Yield

$$\text{Dividend Yield}_i = \frac{\text{Dividend Paid}_i - \text{Rights Issue Amount}_i}{\text{Market Value}_i}$$

Where:

Dividend Yield_i : means dividend yield of the company "i" calculated as of the Review Day

Dividend Paid_i : means the total gross amount of cash dividend paid by the company "i" in the prevailing fiscal period

Rights Issue Amount_i : means the sum of amounts found by multiplying the amount of rights issue which the company "i" carried out in the prevailing fiscal period by vesting preemptive rights to the shareholders by the rights issue price.

Market Value_i : means Average MV of the company "i".

2.21. Capping Parameters

The Capping Ratio is the ratio bounding the weight of the stock in the index when capping method is applied.

The Weight Threshold is the ratio that determines the upper limit of the weight that the stock may have in the index at the end of any trading day.

The table below gives both capped indices and their capping parameters:

Index	Capping Ratio	Weight Threshold
BIST 30 Capped 10	10%	15%
BIST 30 Capped 25	25%	30%
BIST 50-30 Capped 10	10%	15%
BIST 50-30 Capped 25	25%	30%
BIST 100 Capped 10	10%	15%
BIST 100 Capped 25	25%	30%
BIST IPO	20%	30%
BIST Technology Capped	20%	30%
BIST Liquid Banks	25%	30%
BIST Liquid 10 Ex Banks	25%	30%
BIST Sustainability	15%	20%
BIST Sustainability 25	10%	15%
BIST Participation 30	10%	15%
BIST Participation 50	10%	15%
BIST Participation 100	10%	15%
BIST Participation Sustainability	10%	15%
BIST Participation Dividend	10%	15%
BIST Dividend 25 Capped 10	10%	15%
BIST Buyback	20%	30%
BIST Industrials Capped	20%	30%
BIST Real Est. Inv. Trusts Capped	20%	30%

2.22. Capping Method

All cappings are fulfilled after all index operations, such as corporate actions, changes in FFR and changes in scope of the index, are performed for the following trading day.

When there is a change in the scope of the index, the weights of constituent stocks are checked without any capping being applied (by removing the capping if there are). If there are stocks whose weights are greater than the Capping Ratio, the weights are decreased to the Capping Ratio by using the weighting factors.

For indices whose constituent stocks are reviewed periodically, the weights are checked after changes, if any, in the scope of the index have been made and without any capping being applied (by removing the capping if there are) at the beginning of the Index Period. If there are stocks whose weights are greater than the Capping Ratio, the weights of the stocks are decreased to the Capping Ratio via weighting factors. For the indices whose constituents are not reviewed periodically, this procedure is applied at the beginning of January, April, July and October.

In addition, at the end of each trading day after all index operations are performed, the weights of the stocks within the scope of the index are checked without removing the capping if there are. If **there is a stock whose weight exceeds the Weight Threshold**, after removing the cappings the weight of this stock is decreased to the capping ratio via weighting factor.

Weighting checks are performed only for price versions of indices calculated in TL. Weighting factors determined for price index calculated in TL are used for return version calculated in TL and in US \$ and Euro versions of the index.

2.23. Sustainability Assessment Company

For sustainability assessment, Borsa İstanbul collaborates with London Stock Exchange Group (“LSEG”).

2.24. ESG Score

LSEG determines;

- a) Category and main field scores by weighting data inputs of companies,
- b) Sustainability Scores (ESG Scores/[LSEG ESG Score](#)) of the companies by taken into account the scores under 3 main fields

within the framework of LSEG Sustainability Assessment.

LSEG's previous sustainability assessment methodology consisted of three main categories-Environmental, Social, and Governance-and a total of 10 subcategories under these main categories, using a scoring system ranging from 0 to 100.

LSEG's new sustainability assessment methodology, on the other hand, consists of three main categories Environmental, Social, and Governance and a total of 12 themes under these categories, using a scoring system ranging from 0 to 5.

More detailed information is available at <https://www.lseg.com/en/data-analytics/sustainable-finance/esg-scores#methodology>.

Starting in March 2026, LSEG began publishing Sustainability Ratings based on both the old and new rating methodologies. The period during which ratings determined by both the old and new methodologies will be published simultaneously is referred to as the Transition Period, and LSEG's warranty regarding the old methodology will remain in effect throughout the Transition Period.

2.25. Standard

It refers to the "Standard of Share Certificate Issuance and Trade" created by Advisory Board of Participation Banks Association of Turkey (TKBB). The aforementioned Standard is available at <https://en.tkbb.org.tr/advisory-board/standards>.

2.26. Guide

It refers to the document created by the TKBB Advisory Board. The document in Turkish can be accessed at <https://tkbb.org.tr/danisma-kurulu/rehberler>.

2.27. KAFIF (Participation Finance Principles Information) Form

It refers to the "Participation Finance Principles Information Form", which is created to determine whether companies operate in accordance with the participation finance principles and is filled in by companies, taking into account the Standard and Guidelines, and announced by companies on PDP, to be used in periodic changes of BIST Participation All Shares.

2.28. KAFIF Committee

KAFIF Committee refers to the Participation Finance Principles Information Form Assessment Committee. KAFIF Committee established to carry out process to determine whether companies that are traded on Borsa İstanbul or will be offered to public for trading meet the BIST Participation All Index selection criteria. It consists of six members where three of them are appointed by Borsa İstanbul and the rest by the TKBB. KAFIF Committee carries out its work within the scope of the Standard, the Guidelines and this Methodology.

2.29. Buyback Data

Refers to the data disclosed in the notifications made with the template named "Notification Regarding the Buyback of Shares" on PDP.

3. CALCULATED INDICES; STARTING DATES AND VALUES

3.1. BIST 100 Index

The Index is used as the main index for Borsa İstanbul Equity Market. It consists of 100 stocks selected among the stocks of companies traded on Stars Market. BIST 100 index automatically covers BIST 30 and BIST 50 stocks.

3.2. BIST 50 Index

The Index consists of 50 stocks selected among the stocks of companies traded on Stars Market. BIST 50 index automatically covers BIST 30 stocks.

3.3. BIST 30 Index

The Index consists of 30 stocks selected among the stocks of companies traded on Stars Market.

3.4. BIST 50-30 Index

The Index consists of 20 stocks included in BIST 50 Index but not in BIST 30 Index.

3.5. BIST 100-30 Index

The Index consists of 70 stocks included in BIST 100 Index but not in BIST 30 Index.

3.6. BIST 500 Index

The Index consists of 500 stocks selected among the stocks of companies traded on the Stars Market, Main Market and SubMarket.

3.7. BIST Liquid Banks Index

The Index consists of the stocks of banks traded on Stars Market with the highest Average FFMV and Daily Average Traded Value.

3.8. BIST Liquid 10 Ex Banks Index

The Index consists of the stocks of companies excluding banks, traded on Stars Market with the highest Average FFMV and Daily Average Traded Value.

3.9. BIST Corporate Governance Index

The Index consists of the stocks of companies traded on Stars, Main and SubMarket markets and has the minimum required corporate governance rating grade.

3.10. BIST Sustainability Index

The Index consists of the stocks of companies traded on Stars, Main and SubMarket markets, volunteer to be involved in sustainability assessment and has the minimum required sustainability score.

3.11. BIST Sustainability 25 Index

The Index consists of 25 stocks with high Average FFMV and Daily Average Traded Value, selected among companies with high sustainability ratings, included in the BIST Sustainability Index.

3.12. BIST Participation All Shares Index

The Index consists of the stocks of companies that operating in accordance with the principles of described in the Standard which are traded on Stars, Main and SubMarket markets.

3.13. BIST Participation 100 Index

The Index consists of 100 stocks that selected among the stocks of companies included in BIST Participation All Shares Index as of the Review Day and includes the stocks included in BIST Participation 50 Index.

3.14. BIST Participation 50 Index

The Index consists of 50 stocks that selected among the stocks of companies included in BIST Participation All Shares Index as of the Review Day and includes the stocks included in BIST Participation 30 Index.

3.15. BIST Participation 30 Index

The Index consists of 30 stocks that selected among the stocks of companies included in BIST Participation All Shares Index as of the Review Day.

3.16. BIST Participation Sustainability Index

The Index consists of the stocks included in both BIST Participation All Shares and BIST Sustainability Indices.

3.17. BIST All Shares Index

The Index consists of the stocks of all companies traded on Stars, Main and SubMarket markets.

3.18. BIST All Shares-100 Index

The Index consists of the stocks of companies which are included in BIST All Index but not in BIST 100 Index.

3.19. BIST Sector and Sub-Sector Indices

The Indices consist of the stocks of companies traded on Stars, Main and SubMarket markets.

3.20. BIST Stars Index

The Index consists of the stocks of companies traded on Stars Market.

3.21. BIST Main Index

The Index consists of the stocks of companies traded on Main Market.

3.22. BIST Investment Trusts Index

The Index consists of the stocks of investment trusts traded on Stars, Main and SubMarket markets.

3.23. BIST City Indices

The Indices consist of the stocks of companies traded on Stars, Main and SubMarket markets categorized by the city where the main production/service or the registered office is located.

3.24. BIST Dividend Index

The Index consists of the stocks of companies traded on Stars, Main and SubMarket markets, all of them having distributed cash dividends in the last 3 years.

3.25. BIST Dividend 25 Index

The Index consists of 25 stocks placed in the first 2/3 slice in the ranking of the constituents of BIST Dividend Index in descending order according to dividend yield as of the Review Day, have the highest Average FFMV and Average Daily Transaction Volume.

3.26. BIST Dividend 5 Years Index

The Index consists of the stocks of companies traded on Stars, Main and SubMarkets, all of them having distributed cash dividends in the last 5 years.

3.27. BIST Dividend 10 Years Index

The Index consists of the stocks of companies traded on Stars, Main and SubMarkets, all of them having distributed cash dividends in the last 10 years.

3.28. BIST Participation Dividend Index

The Index consists of the stocks included in both BIST Participation All Shares and BIST Dividend indices.

3.29. BIST IPO Index

The Index consists of stocks of the companies offered to the public and started to be traded on Stars, Main and SubMarket markets.

3.30. BIST SME Industrial Index

The Index consists of the stocks of industrial companies traded on Stars, Main and SubMarket markets and who satisfy at least one of the annual net sales or financial balance sheet size criteria, except the number of employees criterion, that appear in the "Small and Medium Size Enterprises Regulation" ordinance.

3.31. BIST Buyback Index

It consists of the shares of companies traded on Stars, Main and SubMarket that implement a Buy-Back Program to purchase their own shares within the scope of the Capital Markets Board's "Principles on Buy-Back Shares" numbered II-22.1 (Principle) and the relevant Principle Decisions.

3.32. Starting Dates and Starting Values of Indices

Starting values and dates of BIST Market Cap Weighted Stock Indices can be found on the Borsa İstanbul website - BIST Stock Indices page (<https://www.borsaistanbul.com/files/bist-endeks-kodlari-ve-baslangic-degerleri.xlsx>).

4. CALCULATION FORMULA

Indices are calculated weighted by Weighted FFMV (Weighted Free Float Market Value) of the shares within their scope.

The following formula is used in the calculation of indices:

$$E_t = \frac{\sum_{i=1}^n (F_{it} / D_t) * N_{it} * H_{it} * K_{it}}{B_t}$$

- E_t = Value of the index at time t
- N = Number of constituent stocks
- F_{it} = Price of the stock "i" at time t
- N_{it} = Total number of shares of stock "i" at time t
- H_{it} = Free float ratio used in index calculation of the stock "i" at time t
- K_{it} = Weighting factor of the stock "i" at time t
- D_t = Exchange rate on day t
- B_t = Divisor of the index at time t

5. ADJUSTMENT IN THE INDICES

5.1. If any change in the numerator of the index formula occurs due to the events listed in Article 5.2. below, the divisor of the index will also be adjusted to ensure continuity in the index value.

The adjusted divisor of the indices is calculated using the following formula:

$$B_{t+1} = (1 + \frac{\Delta PD}{PD_t}) * B_t$$

- B_{t+1} = Adjusted divisor to be used on day t+1
- ΔPD = Change in the total Weighted FFMV of the stocks due to the events described in Article 5.2. below
- PD_t = Total Weighted FFMV of the stocks on day "t"
- B_t = Divisor on day t

If capital increases and/or dividend payments of the traded companies are realized in a currency other than Turkish Lira, Turkish Lira equivalents, calculated by using exchange rates of the last business day before ex-date, are used in index adjustments.

5.2. Events which require adjustment in the divisors of indices and the timing of the adjustments:

For the index actions to be carried out based on the company announcements made in the PDP, the company should have delivered the statement to the PDP until 16:30 (until 12:00 on half days) on the business day that precedes the realization date. Otherwise, the notification shall be deemed to be published on the following business day and the relevant adjustment will be made effective on the second trading day that succeeds the delivery of the statement to PDP.

All adjustments other than cash dividend payment are made both in the price and return indices.

a) Cash dividend payment

The adjustment is made only in return indices taking into account the amount of net dividend to be effective on the ex-dividend date.

b) Capital increase in cash through rights offering

- i. If the last trade price and/or the adjusted price (in case of dividend and bonus issues) of the stock are equal to or higher than the subscription price;

The adjustment is made to be effective on the rights issue date. But if the capital has not reached to the target capital, due to the unsold shares; re-adjustment is made to be effective on the fourth trading day following the notification on PDP that the unsold stocks are cancelled.

- ii. If the last trade price and/or the adjusted price (in case of dividend and bonus issues) of the stock is lower than the subscription price;

The adjustment regarding the amount of rights issue is made to be effective on the fourth trading day that succeeds the day when the completion of the capital increase process is notified to PDP, after the exercise of the rights issue and the sale of the remaining shares on the Primary Market.

c) Capital increase in cash without rights offering

- i. Adjustment is made to be effective on the trading day that succeeds the ending date of the sales transaction if the shares representing the capital increase are sold via private placement.
- ii. Adjustment is made to be effective on the fourth trading day that succeeds the ending date of the sales transaction if the shares representing the capital increase are sold via public offering.

d) Inclusion of new stocks in indices

Adjustment is made to be effective on the day the new stock is added to the index.

e) Exclusion of stocks from indices

Adjustment is made to be effective on the day the stock is excluded from the index.

f) Change in Free Float Ratio (FFR)

- i. The free float ratios that are announced by CRA for the last business day of the week are analyzed and the changes in ratios except those occur during the corporate action process are taken into account.

If the FFR;

- is equal or lower than 50% and there is a change at the rate equal to 5 points or higher;
- is higher than 50% and there is a change at the rate equal to 10 points or higher;

adjustment is made to be effective on the third trading day of the following week.

- ii. Free float ratios of the shares that start to be traded on the secondary market for the first time, are adjusted with the ratios announced by CSD for the last business day of the first week they started to be traded and the changes are effective on the third trading day of the following week. This adjustment will not be subject to the thresholds specified in Article “i)”.
- iii. FFR are not adjusted for the weeks consisting of two or less trading days.
- iv. In the event that the FFR is adjusted in cases that require corrections in the indices, the FFR is adjusted taking into account the latest ratios announced by CRA.
- v. If shares held by current shareholders are offered to the public, FFR are adjusted to be effective from the fourth trading day succeeding the end date of the transaction.
- vi. If deemed necessary, changes on the ratios can be made with the decision of the Borsa İstanbul Management.

g) Company mergers

Adjustment is made to be effective on the date of the distribution of shares issued due to the merger.

h) Company spin-off

Adjustment is made to be effective on the date of the distribution of shares issued due to the spin-off.

i) The sale of shares held ready to sell in public offerings:

Adjustment is made to be effective on the fourth trading day of the month succeeding the one when the sale has been made considering the delivery of the statement related to the sale to PDP.

j) Share transformation of companies with multiple groups of stock altering the number of shares in different groups:

Adjustment is made effective on the second trading day that succeeds the delivery of the statement concerning the share transformation to PDP.

6. SELECTION OF STOCKS TO BE INCLUDED IN THE INDICES

6.1. BIST 30, BIST 50 and BIST 100 Indices

The Selection Pool for BIST 30, BIST 50 and BIST 100 Indices includes stocks that have been traded on Borsa İstanbul for at least 60 days, among the stocks announced to be included in the Stars Market during the relevant Index Period.

- a) For the stocks included in the indices in accordance with Article 8.5, the 60-day trading requirement does not apply.
- b) For BIST 100 Index determined by ranking according to Article 7.1 and selecting according to Article 7.2 from the Selection Pool where the number of stocks remaining after the application of article 6.1.a are;
 - i. equal to or more than 113, Selection Pool is determined only among the stocks traded on Stars Market,
 - ii. less than 113, Selection Pool is determined among the stocks traded on Stars Market and the list of additional stocks, announced by Borsa İstanbul market grouping study, to be used in the selection of BIST 100 constituents,
 - iii. less than 110, the Selection Pool is expanded by adding the stocks of previous Review Period that are not in the selection pool in the current Review.
- c) The stocks to be included in BIST 30 and BIST 50 indices are selected from the stocks traded on Stars Market, determined by ranking according to Article 7.1 and selecting according to Article 7.2 from the Selection Pool created according to Article 6.1.a

6.2. BIST 500 Index

- a) The stocks announced with the Announcement "Re-Determination of the New Market Segments of the Shares in the Equity Market's BIST Stars, BIST Main and BIST SubMarket" (Announcement) are Selection Pool of the BIST 500 Index.
- b) According to the Announcement, if the number of stocks announced to be included in the Stars Market in the relevant Index Period is 503 or more, including 3 substitute stocks, the shares and/or substitute stocks to be included in the BIST 500 Index shall be determined by ranking according to the Article 7.1 and selection according to the Article 7.2 from the Selection Pool to be formed from the stocks announced to be included in the Stars Market in the relevant Index Period.
- c) If the number of stocks announced to be included in the Stars Market in the relevant Index Period according to the Announcement is less than 503, including 3 substitute stocks, the stocks announced to be included in the Stars Market are directly included in the BIST 500 Index. The remaining portion shall be determined by ranking according to Article 7.1 and selection according to Article 7.2 from the Selection Pool to be formed from the stocks announced to be included in the Main Market in the relevant Index Period according to the Announcement.
- d) If the total number of stocks announced to be included in the Stars and Main Market in the relevant Index Period according to the Announcement is less than 503, including 3 substitute stocks, the stocks announced to be included in the Stars and Main Market are directly included in the BIST 500 Index. The remaining portion shall be determined by ranking according to Article 7.1 and selection according to Article 7.2 from the Selection Pool to be formed from the stocks announced to be included in the SubMarket in the relevant Index Period according to the Announcement.
- e) Of companies whose shares of more than one group are traded separately, only the share with the highest Average FDP PD is included in the index.

6.3. BIST Liquid Banks Index

- a) The stocks to be included in the BIST Liquid Banks Index are selected among the stocks of banks that will be traded on Stars Market in the relevant Index Period.
- b) To become eligible for inclusion in the index, stocks should have been traded on Borsa İstanbul for at least 60 days as of the end of the Review Period.
- c) If a bank has more than one group of stock, then only the one, with the highest Average FFMV, is taken into account.
- d) Stocks to be included in the index are selected as follows:
 - i. The stocks determined according to subparagraphs a, b, c of this article shall be sorted from highest to lowest according to Daily Average Traded Value in the Review Period.
 - ii. Ranked stocks are included in the index until 90% of the total of Daily Average Traded Value is reached.
 - iii. The number of stocks to be included in the index should be at least 6. If 90% of the total Daily Average Traded Value is reached with less than 6 stocks, the following stocks are included in the index until the number of stocks in the index reaches 6.
 - iv. If the number of bank stocks in Stars Market is 6, then all bank stocks are included in the index.
 - v. If the number of bank stocks in Stars Market is less than 6, then all bank stocks in Stars Market are included in the index, and the rest is completed with the stocks with the highest Daily Average Traded Value among the bank stocks traded on Main Market by applying clauses b and c of this article.

6.4. BIST Liquid 10 Ex Banks Index

- a) The stocks to be included in the BIST Liquid 10 Ex Banks Index are selected among the stocks of companies, excluding banks, traded on Stars Market in the relevant Index Period.

- b) To become eligible for inclusion in the index, stocks should have been traded on Borsa İstanbul for at least 60 days as of the end of the Review Period.
- c) If a company has more than one group of stock, then only the one, with the highest Average FFMV, is taken into account.
- d) Stocks to be included in the index are selected as follows:
 - i. The stocks determined according to subparagraphs a, b, c of this article shall be sorted from highest to lowest according to Daily Average Traded Value in the Review Period.
 - ii. Top 10 stocks are selected as index constituents and the next 3 are selected as reserve list.

6.5. BIST Corporate Governance Index

- a) In order for the stocks of a company to become eligible for inclusion in the Corporate Governance Index, the company should have a corporate governance rating grade, given by a rating institution authorized by CMB, and its aggregate grade must be 8 or higher while the minimum grade for each main section must not be lower than 7 out of 10.
- b) The rating must be given upon the request of the company willing to be rated and must be renewed annually.
- c) If ratings have been obtained from more than one rating institution, the last reported rating will be taken into account. If the rating agreement of any of these rating institutions is terminated for any reason, or the rating institution is excluded from the "List of Rating Institutions" by CMB, then the rating given by the other rating institutions are taken into account.
- d) The stocks of the companies that meet the minimum rating requirement are included in the index on the business day that succeeds the date of notification of the rating to PDP. (Any notice delivered to PDP after 12:00 on half days, or after 16:30 on other days are deemed to have been delivered on the next business day.)

6.6. BIST Sustainability Index

~~a) LSEG sustainability assessment methodology consists of 3 pillars as environment, social and governance and 10 categories under these 3 pillars. Each category assessed with different themes and data points. For further information, <https://www.lseg.com/en/data-analytics/sustainable-finance/esg-scores#methodology>.~~

- ~~b) a) For inclusion of stocks of the companies to the BIST Sustainability Index, minimum requirements are;~~
- i. ESG Score should be 50 or ~~more~~ higher under the old methodology, or 2.5 or higher under the new methodology
 - ii. Pillar scores should be 40 or ~~more~~ higher for each main category under the old methodology, or 2 or higher under the new methodology
 - iii. ~~At least 8 of scores should be 26 or more.~~

as of Review Date. In the assessment, the data and the scores of last two calendar years preceding the calendar year to which the Index Period belongs to are taken into account. ~~Meeting the above criteria in at least one of the two calendar years is sufficient for the company's shares to be included in the index~~ It is sufficient for the company's shares to be included in the index if the above thresholds are met in at least one of the two calendar years in question, whether using the old or new methodology.

- ~~e) b) Among the companies included in the BIST Sustainability Index, a company that fails to meet the criteria specified in Article 6.6. ~~b-a~~ is not removed from the Index in the first Valuation Period in which it fails to meet the ~~criteria~~ thresholds, but is given time to meet the criteria again for one Index Period. The shares of the company that fails to meet the specified ~~criteria~~ thresholds whether using the old or new methodology in two consecutive Valuation Periods shall be removed from the BIST Sustainability Index effective from the beginning of the following Index Period.~~

6.7. BIST Sustainability 25 Index

- a) The BIST Sustainability 25 Index Selection Pool includes stocks that meet the following criteria as of the Valuation Day;
- i. ESG Score of 70 or ~~above~~, higher under the old methodology, or 3.5 or higher under the new methodology
 - ii. ~~Each main topic grade~~Pillar scores of 60 or ~~above~~, higher for each main category under the old methodology, or 3 or higher under the new methodology
 - iii. ~~At least 8 of the category grades are 50 or above.~~

In valuations, the period to which the Index Period belongs data and grades from the two calendar years preceding the calendar year are taken into account. Promise the above ~~criteria~~ thresholds are met in at least one of the two calendar years, ~~whether using the old or new methodology~~, is sufficient for company shares to be included in the Selection Pool of the index.

- b) Among the companies in the BIST Sustainability 25 Index, a company that fails to meet the ~~criteria~~ thresholds specified in Article 6.7.a is not removed from the pool in the first Valuation Period in which it fails to meet the ~~thresholds~~ criteria, and is given time to meet the criteria again for one Index Period. The shares of the company that fails to meet the specified ~~thresholds~~ criteria, ~~whether using the old or new methodology~~, in two consecutive Valuation Periods are removed from the BIST Sustainability 25 Index Selection Pool.
- c) The BIST Sustainability 25 Index is determined by ranking according to Article 7.1 and selection according to Article 7.2 from the Selection Pool to be formed according to Articles a and b.
- d) If there are not a sufficient number of shares (28 in total, 25 within the scope of the index and 3 as reserve) that fulfill the criteria according to items a and b above, all of those that fulfill the criteria are included in the index and/or reserve list. The missing part shall be completed by ranking according to Article 7.1 and selecting according to Article 7.2 among the companies to be found by deducting 5 points ~~under the old methodology~~, 0.25 points ~~under the new methodology~~ each from the scores in Article 6.7.a.

6.8. BIST Participation All Shares

Stocks to be included in the BIST Participation All Shares Index are selected as follows:

- a) As of the review period, the stocks of companies that operating in accordance with the principles of described in the Standard will be traded on Stars, Main and SubMarket markets are included in the index. The shares to be included in the index are determined by the KAFIF Committee, taking into account the Standard and Guideline, within the framework of the answers given by the companies in the KAFIF Form they announced on PDP.
- b) As of the Review Day, companies that have not entered the KAFIF Forms or made missing entries and companies that have not announced their financial statements on PDP are considered that they do not meet the index criteria according to the conservative approach.
- c) In case of conflicting data with other publicly available sources in the KAFIF Form announced in PDP, the matter is decided by the KAFIF Committee. While making a decision, the KAFIF Committee may consider the information in another publicly available source instead of the information in the KAFIF Form.
- d) Companies traded for the first time within the Index Period are included in the index on the date they start trading, if there is a statement that they meet the criteria in the Borsa İstanbul Opinion section of the public offering prospectus.
- e) In order to the stocks of the companies to be included in the index, companies must comply with the principles regarding the articles of association and activities set out in the Standard and Guide, and in the relevant financial statement period as of the review day;
 - i. The ratio of income from activities specified in the Article 3.2. of the Guide to total income of the company is 5%,

- ii. The ratio of interest-bearing assets to total assets is 33%,
- iii. The ratio of interest-bearing loans to total assets is 33%,

should not exceed the threshold values taken as. If the company prepares a consolidated financial statement, consolidated amounts are used to calculate those ratios.

- f) Stocks which are included in the index will remain in the index until the next periodic review provided that ratios do not exceed the threshold by 10% in any of mentioned ratios. If the threshold value is exceeded in any of the ratios in two consecutive periodic reviews, the stocks of the company are removed from the index.

6.9. BIST Participation 30, BIST Participation 50 and BIST Participation 100 Indices

- a) The Selection Pool for BIST Participation 30, BIST Participation 50 and BIST Participation 100 Indices includes stocks that have been traded on Borsa İstanbul for at least 20 days as of the Review Day, among the stocks announced to be included in the BIST Participation All Shares Index during the relevant Index Period. For the stocks included in the indices in accordance with Article 8.7, the 20-day trading requirement does not apply.
- b) The stocks to be included in the BIST Participation 30, BIST Participation 50 and BIST Participation 100 indices are selected from the Selection Pool, created according to Article 6.8.a, by ranking according to Article 7.1 and choosing according to Article 7.2.

6.10. BIST Participation Sustainability Index

The Index consists of the stocks included in both BIST Participation All Shares and BIST Sustainability indices.

6.11. BIST City Indices

- a) In production companies, the city where minimum 50% of the production takes place is taken into account. In service companies (except communication and construction companies and holdings), the city where minimum 50% of the operating income is derived is taken into account. If there is no city where minimum 50% of the production or operating income is realized/derived, then the city where the registered office is located is taken into account.
- b) For wholesale trade companies, telecommunication companies, construction and infrastructure companies and holdings, the city where the registered office is located is taken into account.
- c) Companies that operate in the financial sector with the exception of holdings and companies that operate in the retail sector are not included.
- d) For the stocks of a company to be included in the city indices, the scope of the city indices should cover the activities of the company and there should be an index being calculated for the city in which the company is covered.

6.12. BIST Dividend Index

- a) The stocks to be included in the BIST Dividend Index are selected from the stocks that will be traded on the Star, Main and SubMarket markets in the relevant Index Period.
- b) Annual Periodic Review conducted for February-April Index Period:
 - i. Companies that have a Net Profit, as of the Review Day, on their annual financial statements prepared for the last 3 fiscal years in accordance with the CMB Legislation are included in the index if and to the extent the amount of dividend distributed to shareholders, which is calculated by subtracting the amount of rights issue by vesting preemptive rights to the shareholders (the total amount found by multiplying capital increase amount by the rights issue price) which is carried out in the fiscal year succeeding these years from the amount of cash dividend paid to the shareholders in the same fiscal year, is positive.
 - ii. Companies that have losses in the 12-month period from the last financial statement published on PDP as of the Review Day are not included in the index.
- c) Midterm Reviews conducted for May-July, August-October and November-January Index Period:

- i. Companies that have a Net Profit, as of the Review Day, on their annual financial statements prepared for the last 3 fiscal years in accordance with the CMB Legislation are included in the index if and to the extent the amount of dividend distributed to shareholders, which is calculated by subtracting the amount of rights issue by vesting preemptive rights to the shareholders (the total amount found by multiplying capital increase amount by the rights issue price) which is carried out in the fiscal year succeeding these years from the amount of cash dividend paid to the shareholders in the same fiscal year, is positive. Unlike article 6.11.b.i, since the last annual financial statements will be announced as of the first review conducted for the May-July Index Period, the "last 3 fiscal years" criterion in subject will be applied with a forward shift of one period.
 - ii. As of the Review Day, the General Assembly decisions regarding the distribution of cash dividends and the Board of Directors decisions regarding the rights issue by vesting preemptive rights to the shareholders. It is not necessary that cash dividends have actually been paid or that coupon rights have started to be exercised.
 - iii. During the year, the decisions of the Board of Directors regarding the distribution of advance dividends from the profit of the previous year or the current year are taken into account, it does not have to be actually paid.
- d) Proportional accounting periods of 6 months or less that occur in companies that change their fiscal periods may not be taken into account as "fiscal years" in terms of the "last 3 fiscal years" criterion.
- e) Only the data announced on PDP are taken into account. Turkish Lira equivalents of the capital increases and/or dividend payments in a currency other than Turkish Lira, are calculated by using exchange rates of the previous business day before ex-date.

6.13. BIST Dividend 25 Index

- a) BIST Dividend 25 Index Selection Pool consists of stocks that will be included in BIST Dividend Index in the relevant Index Period, which are in the first 2/3 (ordered from largest to smallest) according to the Dividend Yield as of the Review Day. Dividend Yield is calculated according to article 2.20. While doing calculations for midterm review conducted for May-July, August-October and November-January Index Periods, the total gross cash dividend amount paid by the Company in the current fiscal period.
- i. If the company has not held its General Assembly yet; The greater of the dividend amount distributed in the previous year or the total amount of dividend advances, if any, decided to be distributed by the Company's Board of Directors during the year.
 - ii. If the Company has held its General Assembly, it is taken as the sum of the total cash dividend amount decided at the General Assembly and the amount of advance dividends, if any, decided to be distributed by the Company's Board of Directors during the year.
- b) The scope of the BIST Dividend 25 Index is determined by ranking according to Article 7.1 and selecting according to Article 7.2 from the Selection Pool created according to Article 6.12.a.
- c) If there is not a sufficient number of stocks (A total of 28 stocks, 25 within the scope of the index and 3 as reserve) meeting the criteria according to Article 6.12.a, then the companies that were not qualified to be ranked are ranked in descending order according to their dividend yields, and stocks are chosen to the index starting from the stock at the top of the ranking until the number of stocks in the index reaches 25 provided that any company that has more than one group of stocks traded with different ticker symbols can have only one group of stocks included in the index.

6.14. BIST Dividend 5 Years and BIST Dividend 10 Years Indices

- a) Stocks included in the BIST Dividend 5 Years and BIST Dividend 10 Years indices are selected from among the stocks traded on the Star, Main and SubMarket markets during the relevant Index Period.
- b) Stocks that distributed cash dividends in the last 5 and 10 calendar years, respectively, as of the Review Date, are included in the BIST Dividend 5 Years and BIST Dividend 10 Years indices.

- c) The distribution of cash dividends from profit or internal resources; advance, upfront or installment payments don't make any difference in periodic review.
- d) Only the cash dividends that are distributed after the shares has started to be traded are taken into account.
- e) When determining whether companies have distributed cash dividends for the relevant year, the Ex-Dividend Dates announced on PDP are taken into account. For installment cash dividend payments carried over to the following year, only the year in which the first installment was distributed is taken into account.
- f) Under the "Provisional Article 13 added to Turkish Commercial Code No. 6102" published in the Official Gazette dated April 17, 2020 and numbered 31102, cash dividends distributed by companies, that were unable to distribute cash dividends in 2020, in January or February 2021 shall be deemed to have been distributed in 2020.

6.15. BIST Participation Dividend Index

The Index consists of the stocks included in both BIST Participation All Shares and BIST Dividend indices.

6.16. BIST IPO Index

- a) The index is composed of stocks of the companies offered to the public and started to be traded on Stars, Main and SubMarket markets and stocks of the real estate investment trusts and venture capital investment trusts that are offered to the public and started to be traded on the Collective and Structured Products Market. Companies are included in BIST IPO Index on the first trading day and they remain in the index for 2 years.
- b) In case the number of stocks in the Index falls below 5 due to the expiration of 2 years, the expired stock remains in the index until a new stock is included. According to that exception when a new stock is included, the stocks which continue to remain in the index are excluded from the index respectively considering their waiting times.
- c) In case the stocks which are excluded from the index due to the reasons specified in Article 8.1 are included in the index again after the elimination of these reasons, the days on which its trading remains suspended and the days on which it is traded on the Watchlist Market are included in the calculation of 2-year period.
- d) If the number of stocks within the index falls below 5 due to the reasons stated in Article 8.1, the Capping Ratio shall be determined so that the weight of the remaining stocks is equal. If the number of stocks falls below 4, the Weight Threshold is not applied.

6.17. BIST SME Industrial Index

The Index includes the stocks of industrial companies that will be traded on Stars, Main and SubMarket markets in the relevant Index Period and who satisfy, with respect to the latest annual balance sheet available on PDP as of the review day, at least one of the annual net sales or financial balance sheet size criteria that appear in the "Small and Medium Size Enterprises Regulation" SME definition of the related ordinance.

If a company, whose stocks are not included in the BIST SME Industry Index, has some activities accepted as "temporary", its stocks are not included in the index until the end of temporary period.

Sales revenues in the financial statements of the pro rate accounting period of the companies that have changed their financial periods, are recalculated to represent 12 months.

6.18. BIST Buyback Index

BIST Buyback Index includes the shares of companies that are determined to have

- a) An ongoing repurchase program in accordance with the Communiqué and the Principle,
- b) Repurchased a number of shares, over the last three years, representing at least 0.1% of its capital within the scope of the repurchase programs,
- c) Actually repurchased shares in the last 12 months prior to the Valuation Day.

For companies with more than one share group traded, the groups included in the buyback program may be included in the Index.

7. RANKING AND SELECTION METHOD FOR THE STOCKS TO BE INCLUDED IN THE INDICES

In Periodic Reviews, the ranking and selection of the stocks to be included in the BIST 30, BIST 50, BIST 100, BIST Participation 30, BIST Participation 50, BIST Participation 100, BIST Dividend 25 and BIST Sustainability 25 indices are made by the following method.

7.1. The stocks in the Selection Pool, created according to Article 6 for the relevant index, are ranked as follows are ranked as follows:

- a) Stocks are ranked in descending order according to their Average FFMV.
- b) Stocks are ranked in descending order according to the Daily Average Traded Value in the Review Period.
- c) The final ranking is made as described below:

If there is a stock which is in the first place in both lists, it is assigned to the first place in the final list. If there is no stock which is in the first place in both lists, it is examined whether there is any stock which is in the first two places. These steps are repeated until a stock which will be assigned to the first place in the final list is found. Then, the above steps are repeated for the succeeding places. If there are two stocks which are eligible to be placed in the first “n” places in both lists, then the one with the higher Average FFMV is assigned to the upper rank in the final list.

7.2. The selections of the stocks, ranked according to Article 7.1, for the indices are made as follows:

In the final ranking;

- a) Stocks which ascend to the upper rank specified in the table below or higher and are not covered by the index are included in the Index.
- b) Stocks which descend down below the lower rank specified in the table below and are covered by the index are excluded from the Index.
- c) If the number of stocks ascending to the specific upper rank or higher is higher than the number of stocks which descend down below the specific lower rank, then starting from the stock which is positioned in the specific lower rank, the required number of stocks in the upper ranks are excluded from the index until the numbers of stocks included-excluded are equal.
- d) If the number of stocks descending down below the specific lower rank is higher than the number of stocks ascending to the specific upper rank or higher, then starting from the stock which is positioned one place below the specific upper rank, the required number of stocks in the lower ranks are included the index until the numbers of stocks included-excluded are equal.
- e) If a company has more than one group of stock, then only the one, with the highest ranking, shall be included in the Index.
- f) The number of shares shown in the table below are selected as substitutes for any changes likely to occur within the Index Period and are announced concurrently with the periodic changes.

Index	Upper Rank	Lower Rank	Substitute
BIST 30	25	35	3
BIST Participation 30			
BIST 50	45	55	3
BIST Participation 50			
BIST 100	90	110	3

BIST Participation 100			
BIST 500	-	-	3
BIST Dividend 25	20	30	3
BIST Sustainability 25			

8. NON-PERIODIC CHANGES ON CONSTITUENT STOCKS

For the constituent changes based on the company announcements made in PDP, the company should have delivered the statement to the PDP until 16:30 (until 12:00 on half days) on the business day that precedes the realization date. Otherwise, the notification shall be deemed to be published on the following business day and the relevant change will be made so that it will be effective on the second trading day that succeeds the delivery of the statement to PDP.

8.1. Stocks whose trading are halted permanently, stocks whose trading are suspended for more than 5 consecutive trading days except those that are suspended due to additional public offering and stocks transferred to the Watchlist Market from their current markets are excluded from all the indices under which they are covered, to be effective on the date of halt, suspension or transfer. Stocks excluded from BIST 30, BIST 50, BIST 100, BIST 500, BIST Liquid 10 Ex Banks, BIST Participation 30, BIST Participation 50, BIST Participation 100, BIST Dividend 25 and/or BIST Sustainability 25 indices are replaced with substitute stocks.

8.2. Stocks transferred to a market other than the Watchlist Market from their current markets are excluded from the former market index and included in the new market index, effective from the date the transfer takes place.

8.3. When the suspended stocks re-start trading and when the stocks, that were transferred to an ineligible market, re-transfer to an eligible market, provided that they meet all other conditions of the index, they are included in all of the relevant indices, except BIST 30, BIST 50, BIST 100, BIST 500, BIST Liquid 10 Ex Banks, BIST Participation 30, BIST Participation 50, BIST Participation 100, BIST Dividend 25 and/or BIST Sustainability 25 indices at the re-start date and at the re-transfer date respectively, during the same Index Period for the indices that are subject to periodic review.

8.4. Stocks that are started to be traded for the first time are included in all relevant indices other than BIST 30, BIST 50, BIST 100, BIST 500, BIST Liquid Banks, BIST Liquid 10 Ex Banks, BIST Participation 30, BIST Participation 50, BIST Participation 100, BIST Participation Sustainability, BIST Dividend, BIST Dividend 25, BIST Dividend 5 Years, BIST Dividend 10 Years, BIST SME Industrial, BIST Participation Dividend, BIST Sustainability, BIST Sustainability 25 and BIST Buyback indices, as of the first day they start to be traded.

8.5. If the market value of the stocks offered to the public, as of the end of public offering, is greater than the twentieth of the free float market value of BIST 30 Index stocks, then, effective from the 5th trading day they have been traded, they are included in the index in place of the stocks with the lowest free float market value in BIST 30, BIST 50, BIST 100 and BIST 500 indices. Stocks that start to be traded on Stars Market without fulfilling this condition are not included in BIST 30, BIST 50, BIST 100 and BIST 500 indices during the Index Period.

8.6. Companies which are included in BIST 30 Index according to Article 8.5, are included in BIST Participation 30, BIST Participation 50, BIST Participation 100, effective from the 5th trading day following the day they start to be traded if they meet the criteria stated on Article 6.78. For BIST Participation 30, BIST Participation 50 and BIST Participation 100 indices the company with the smallest free float market value amongst the resulting companies are excluded from the indices.

8.7. Companies who change their scope of activities in such a way to result in a change of sector are excluded from their former sector indices and included in new sector indices effective from the first trading day of the week that succeeds the week in which the statement regarding the inception of new activities is published on the PDP. If a company's upper sector group changes from Industrials to another, the company is excluded from the BIST-SME Industrial Index effective from the first trading day of the week following the

announcement in PDP. If a company who included in the BIST Participation All Shares Index changes its scope of activities in such a way to result in a change of Articles of association is required to re-enter the KAFIF Form. If there is a change in the scope of activities that do not meet the criteria in Article 5.65.8 according to the data from the KAFIF Form or if the company has not published the updated KAFIF Form on the PDP until the day the scope of activity change becomes effective the company is excluded from BIST Participation 30, BIST Participation 50, BIST Participation 100 and BIST Participation All Shares indices effective from the first business day of the week following the announcement in PDP. A substitute stock is included in BIST Participation 30, BIST Participation 50 and BIST Participation 100 indices in place of the excluded stock.

8.8. If a company included in a BIST City Index remains outside the scope of the index because of a change in the scope of its activities or it changes the main location where its production/operation/administration takes place, it is excluded from the index and included in the scope of the index which corresponds to its new production/operation/administration premises, effective from the first trading day of the week that succeeds the week in which the statement of change is published on the PDP.

8.9. If a company not included in any of BIST City Indices becomes eligible for inclusion in BIST City Indices due to a change in the scope of its activities, it is included in the corresponding city index, effective from the first trading day of the week that succeeds the week in which the statement of the inception of the new operation is published on the PDP.

8.10. The stocks covered by BIST Corporate Governance Index are excluded from the index effective from the trading day succeeding the date the relevant disclosure is announced in PDP if;

- a) the new corporate governance rating grade disclosed in PDP is lower than the minimum required rate,
- b) the termination of the rating agreement is disclosed in PDP for any reason,
- c) the exclusion of the rating institution from the "List of Rating Institutions" authorized by the CMB is disclosed in PDP,
- d) it is disclosed in PDP that the rating institution is no longer independent,
the date on which the 1-year term expires or the rating agreement is terminate if;
- e) it is not disclosed to the PDP that the rating grade is renewed until the end of the 1-year term following the award of the rating,
- f) it is not disclosed to the PDP that the rating agreement is renewed until the date of expiration of the agreement.

such stocks are excluded from the index effective from the trading day succeeding the date the relevant disclosure is announced in PDP or succeeding the date on which the 1-year term expires. After the elimination of the above reasons, if a rating grade higher than the minimum required rate is disclosed to the PDP, these stocks are included in the index effective from the trading day that succeeds the date of disclosure.

- g) In order to be a constituent of BIST Corporate Governance Index, a company must have a valid contract and a valid rating grade given in accordance with that contract. However, in the event of termination of the contract, when the rating grade is still valid, upon the announcement of the company at PDP, company shall be given a period of up to three months, starting from the date of termination, to submit a new rating grade. In order for this period to be granted, the company must first announce the latest date to disclose the new valid rating grade in PDP (Not exceeding the validity date of the rating grade or three months). At the end of this period, the stocks of the company, which does not disclose a valid contract and a new valid rating grade given in accordance with that contract, shall be excluded from the index effective from the following trading day.

8.11. In case two or more companies, included in BIST 30, BIST 50, BIST 100, BIST 500, BIST Liquid 10 Ex Banks, BIST Participation 30, BIST Participation 50, BIST Participation 100, BIST Dividend 25 and/or BIST Sustainability 25 indices, merge or acquire one another, the stocks of the resulting or surviving company,

remain within the index. The vacancies which arise due to the merged/acquired company/companies are completed with substitutes effective from the distribution date of the stocks issued as a result of the merger or acquisition.

8.12. If a company included in BIST 30, BIST 50, BIST 100, BIST 500 and/or BIST Liquid 10 Ex Banks indices acquires or is acquired by a company that is out of the index, then the market in which the resulting company will be included is examined. If the resulting or surviving company remains in the eligible market, it remains within the scope of the index. If it is not included in an eligible market, it is excluded from the index and replaced with substitute stocks, effective from the distribution date of the stocks issued as a result of the acquisition.

8.13. If a constituent company of BIST Corporate Governance or BIST Liquid Bank indices acquires another company or companies, it remains in the scope of the index.

8.14. If a constituent company of BIST Corporate Governance or BIST Liquid Bank indices are acquired by another company which is not a constituent of the index, it is excluded from the index effective from the distribution date of the stocks issued as a result of the acquisition.

8.15. In case of mergers and acquisitions of companies whose stocks are included in BIST City Indices, the condition of the new company after the merger or the acquiring company is reevaluated.

8.16. If a company, included in BIST 30, BIST 50, BIST 100, BIST 500, BIST Liquid Bank, BIST Liquid 10 Ex Banks, BIST Dividend 25 and/or BIST Sustainability 25 indices spins-off into two or more companies, then the company with the highest free float market value amongst the resulting companies remains within the index until the end of the Index Period.

8.17. If a company included in BIST Dividend, BIST Dividend 25, BIST Dividend 5 Years or BIST Dividend 10 Years indices acquires or is acquired by a company that is out of the index, the resulting company remains within the scope of the index; if it is not included in an eligible market, it is excluded from the index, effective from the distribution date of stocks to the shareholders of the acquired company. A substitute stock is included in BIST Dividend 25 Index in place of the excluded stock.

8.18. A constituent company is excluded from the BIST IPO index on the first workday of the 25th month following its first trading day.

8.19. If a constituent company of the BIST IPO Index acquires another company or companies from the same index, it remains in the index.

8.20. If a constituent company of the BIST IPO Index is acquired by another company which is not in the index, it is excluded from the index, effective from the distribution date of the stocks to the shareholders of the acquired company.

8.21. In case of mergers and acquisitions of companies whose stocks are included in BIST SME Industrial Index, the condition of the new company after the merger or the acquiring company is reevaluated.

8.22. In case of mergers and acquisitions of companies where both stocks are included in BIST Sustainability and/or BIST Sustainability 25 indices, stocks of the new company remain in the index.

8.23. If a company whose stocks are included in BIST Sustainability and/or BIST Sustainability 25 indices acquires another company or companies, it remains in the index.

8.24. If a company whose stocks are included in BIST Sustainability and/or BIST Sustainability 25 indices is acquired by another company that is not included in the index, it is excluded from the index effective from the distribution date of the stocks issued as a result of the acquisition.

8.25. If a company whose stocks are included in BIST Participation 30, BIST Participation 50, BIST Participation 100 and/or BIST Participation All Shares indices acquires or is acquired by another company that is not included in the index, the new company required to re-enter the KAFIF Form. If the company meets the

criteria in Article 6.7. according to the data from the KAFIF Form and traded in a suitable market, it remains in the index. Otherwise, the stocks related to the acquisition are removed from the indices, effective from the distribution date. A substitute stock is included in BIST Participation 30, BIST Participation 50, BIST Participation 100 and BIST Participation All Shares indices in place of the excluded stock.

8.26. In case of mergers and acquisitions of companies where both stocks are included in BIST Participation All Shares Index, stocks of the new company remain in the index if its stocks are traded in a suitable market for index composition.

8.27. If a company, included in BIST Participation 30, BIST Participation 50, BIST Participation 100 and/or BIST Participation All Shares indices spins-off into two or more companies, the new companies required to re-enter the KAFIF Form. If the companies meet the criteria in Article 6.7. according to the data from the KAFIF Form and traded in a suitable market, the new companies remain in the BIST Participation All Shares Index. Amongst the resulting companies to be included in BIST Participation All Shares Index, the stocks of the company with the highest free float market value remains within the BIST Participation 30, BIST Participation 50, BIST Participation 100 indices until the end of the Index Period. Otherwise, the stocks related to the demerger are removed from the indices, effective from the distribution date. A substitute stock is included in BIST Participation 30, BIST Participation 50, BIST Participation 100 and indices in place of the excluded stock.

8.28. If a company whose shares are covered by the BIST Buyback Index takes over another company or companies, it remains covered by the index.

8.29. If a company whose shares are within the scope of the BIST Buyback Index is taken over by a company that is not within the scope, the company is removed from the index effective on the day the distribution of shares to the shareholders of the transferee company begins.

9. DATA USED IN CALCULATIONS AND DATA HIERARCHY

9.1. Prices

- a) Latest transaction prices recorded in the BIST Equity Market are used in the index calculations.
- b) Theoretical/reference prices calculated for the stocks due to corporate actions continue to be used until the share is traded.
- c) Stocks are included in the scope of the indices by taking into account the base/reference prices announced by Borsa İstanbul.
- d) If the stock is not traded or the prices of the stocks included in the indices cannot be reached due to the existence of unusual market conditions, the indices continue to be calculated with the latest prices used.

9.2. Free Float Ratios

- a) Free float ratios that are announced by CRA and reviewed according to Article 5.2.f are used in calculation of indices.
- b) Stocks are included in the scope of the indices with their FFRs announced by Borsa İstanbul.
- c) If the FFRs of the stocks included in the indices cannot be accessed due to lack of data or in case of unusual market conditions, the indices continue to be calculated with the current FFRs of the stocks.

9.3. Number of Shares

- a) Latest number of shares are used in the index calculations.
- b) If the corporate actions cannot be implemented in case of unusual market conditions, the indices continue to be calculated with the last known Number of Shares.

9.4. Lists of Constituent Stocks

- a) The stocks to be included in the indices are determined, announced and used in the calculations within the framework of this Methodology by Borsa İstanbul.
- b) If the stocks to be included in the indices cannot be determined due to lack of data or in case of unusual market conditions, the indices continue to be calculated with the current list.

10. MONITORING AND ADMINISTRATION OF INDICES

10.1. Index Department is responsible for monitoring and administration of indices.

10.2. Borsa İstanbul works with the TKBB Advisory Board (Advisory Board) in determining the stocks of the companies that will be included in the BIST Participation All Shares Index. At periodic reviews, the answers given by the companies to the questions in the KAFIF Form are taken as basis. Questions submitted by companies regarding to KAFIF Form are forwarded to the Advisory Board by Borsa İstanbul. According to the written responses of the Advisory Board, companies can update the KAFIF Form until the Review Day. At periodic reviews, the latest data entered in the KAFIF Form are taken into account. The Methodology is updated and announced within the framework of the opinions of the Advisory Board, which can be expressed as a general rule. Borsa İstanbul Management is authorized with regard to issues that are not stipulated by The Methodology is upon the recommendation of the Committee and by taking the written opinions of the Advisory Board in terms of determining the stocks of the companies that will be included in indices.
